

MERCURY

Overview

Our Mercury kiosk is a marvelous eye-catcher that supports your business needs. This piece of functional art, built to last, is designed for easy portability and shipping.

With its state-of-the-art technology and durability, this kiosk model is compact, adaptable, supports all graphic options and is low maintenance. Useful across a wide array of markets, the Mercury is especially suitable as an interactive directory, in educational facilities, for tourist information, and for industrial installations.

The Mercury is extremely versatile, compatible with all of our off-the-shelf or designed-to-spec software, as well as with your proprietary applications. You just choose the options you want in your Mercury kiosk - and Focus does the rest.

Support your organization's functional needs - including an attractive surface space for your corporate brand - with the Mercury kiosk.
