

VENUS

Overview

The Venus kiosk has a unique, sleek and elegant design. It is constructed with 19" LCD touch screen and high-performance materials which make this piece of functional art both delightful to the eye and built to last.

With a front flexible plate the Venus wall mount kiosk can incorporate wide range of components and accessories to meet any interactive needs making it suitable for deployment wherever it's needed.

Our Venus wall mount kiosks are effective tools for many sectors, including the retail, light industry, tourism, hospitality and many others.
